II

The Lieutenant in his letter of 29.3.96 says that "the Local Govt Board have adopted to present matter of local improvement which are remunerative but [illegible] grants from the Fund" × × "drinking water wells are required only in special localities. We have already provided a large number where only are really wanted - let us have a list of requirements for the allotment of funds accordingly"

Please write at once to Board of Works for lists of works of the kind above referred to (I & II) and

what shrimp grants
are needed for 1896/97

D. No. 893.

2/Dy Commissioners Office.
Bangalore District.
Dated 16th March 1896.

(1)

To
The Secretary to the Government
of Mysore
Rev & Genl Departments.

Sir,

I have the honor to bring to the notice of Government that from accounts received now and then, it appears that much difficulty is already experienced by the people in obtaining drinking water in various parts of the District in this hot season.

2. I have called for Special reports from the Amildars on the subject with estimates for drinking water wells in places in which they are urgently required. I propose that those wells should be executed first for which the ryots are willing to contribute earth work in preference to such as have to be sunk entirely by Government.

3. But I have no funds at my

disposal. There is only a balance of Rs 172/- on this date from the grant under Conservancy and Sanitary charges in the District Fund Budget for 1895-96.

4. I beg, therefore, that the Government may be pleased, at an early date, to make a grant of Rs 10,000/- from Local Funds General to meet the cost of wells and similar urgent works of public utility to be executed this season, - which shows every indication of proving hotter and drier than its immediate and penultimate predecessors.

I have the honor to be,

Sir

Your Most Obedient Servant,

Deputy Commissioner.
